

Where Technology Means More®

## WORKSPACE TRANSFORMATION SOLUTIONS

# Better Spaces. Better Meetings. Better Results.

Making communications and collaboration productive, equitable, and effortless.

## User Experience is Paramount

In a fast-evolving landscape, organizations are navigating the return to the office for culture and innovation while fostering work-from-anywhere flexibility. User experience is paramount for increased collaboration and productivity as well as talent attraction and retention.

# Board / Executive Spaces

20-60 attendees

Executives are an agile and resourceful group and they expect their in-house technology to be the same.

We take technology from the desktop to the boardroom with easy-to-use tools and create a reliable, consistent and familiar experience without the need for IT support.

## Medium and Large Spaces

6–15 attendees (medium) / 15–25 attendees (large)

Create your ideal meeting space with the latest collaboration tools, including room controls, all from the same interface.

## Small Rooms | Huddle & Breakout Spaces

1-8 attendees

No room is too small for efficient and collaborative sessions. Envision a space that is free from clutter and questions on how to connect.

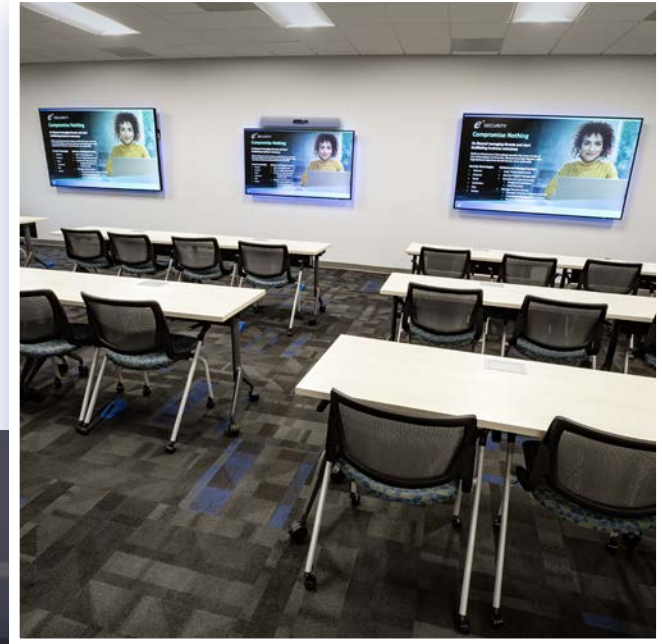

# Training Rooms | Classrooms

15-100 attendees

Corporate trainings and meetings no longer need to be a burden.

Set up your spaces for seamless trainings and meetings with multiple screens, ceiling mounted speakers and microphones, and presenter track to provide an excellent user experience.

## Flex Spaces

Create unique and comfortable spaces where your teams can collaborate, brainstorm, and be inspired.

# Devices

We can help you find and implement the right solutions for your unique needs, from platforms to peripherals, cameras to speakers, room bars to free standing boards.

Cisco Endpoints and Room Kits

Poly Room Bars and Bundles

Logitech Room Bars and Kits

# Speakers, Microphones, Room Panels, and More

Speakers and microphones that are low-profile and esthetically pleasing. Tabletop or wall mounted room controls

Customizable privacy screen technology

Room reservation panels

## Digital Signage

Make an impact with video walls and digital signage. Signage solutions allow for interactive experiences and targeted messaging, leveraging the power of collaboration platforms to deliver impactful communication.

## Services

ePlus has decades of collaboration expertise, as well as custom services to support you, your teams, and your workspaces.
